

# Life At The Mars Desert Research Station

A presentation by MDRS Commander Kent Nebergall

Sponsored by  
Chicago Society For Space Studies  
[www.chicagospace.org](http://www.chicagospace.org)

Free Public Program  
1:00pm Sunday June 09, 2013  
Rasmussen South Meeting Room, 2<sup>nd</sup> Floor

Schaumburg Township District Library  
130 South Roselle Road Schaumburg, IL 60193

Mars Desert Research Station is a two-story simulated Mars base in the Utah desert that has helped NASA, universities, and others develop new methods and technologies for living on the Moon and Mars. Mr. Nebergall, an Astronomer on crew 32, was Commander of crew 124 in 2013 supporting work for NASA and the European Space Agency. Hear about the adventures and misadventures of almost living on Mars!
